Minutes of the 2007 Annual Meeting

The 2007 Annual Meeting of the Association of Professional Engineers of Prince Edward Island was held at the Loyalist Lakeview Resort in Summerside, PEI, on Friday, November 23, 2007. There were 47 members and guests in attendance.

Special Guests from Out of Province:

Tony Dawe, P.Eng., President, Engineers Canada
David Crandall, President, APEGNB
Andrew MacLeod, Executive Director, APEGNB
Conrad Lelievre, P.Eng., President, Engineers Nova Scotia
Dick Myers, P.Eng., President, PEG-NL
Steve McLean, P.Eng., Executive Director, PEG-NL
John McLeod, P.Eng. President, APEGGA
Rick Hilton, Councillor, PEO

2006 - 2007 Council:

Bill Courtney, P.Eng., President
Luc Van Hul, P.Eng., Vice President
Larry Baker, P.Eng., 2nd Year Councillor
Don McGinn, P.Eng., 2nd Year Councillor
Alisa Saciragic, P.Eng., 1st Year Councillor
Mark Victor, P.Eng., 1st Year Councillor
Ron LeBlanc, P.Eng., Engineers Canada Director

Frank Parslow, P.Eng., Executive Director was also present.

Members and E.I.Ts:

Mr. Scott Anderson, P.Eng.	Mr. Don MacEwen, P.Eng.
Mr. Brian Arsenault, P.Eng.	Ms. Christine MacKinnon, P.Eng.
Mr. Colin Atkinson, P.Eng.	Ms. Glenda MacKinnon-Peters, P.Eng.
Mr. Robert Bertram, EIT	Mr. Jody MacLeod, P.Eng.
Mr. Claus Brodersen, P.Eng.	Mr. Kent MacLeod, EIT
Mr. Hal Brothers, P.Eng.	Mr. Gerald Morneau, P.Eng.
Dr. Allan Campbell, P.Eng.	Mr. David Morris, P.Eng.
Mr. Frank Chaisson, P.Eng.	Mr. Terry Murphy, P.Eng.
Mr. Jamie Clow, P.Eng.	Mr. Ed Power, P.Eng.
Mr. Lloyd Cudmore, P.Eng.	Mr. Gerry Stewart, P.Eng.
Mr. Richard Farmer, P.Eng.	Mr. Norman F. Stewart, P.Eng.
Mr. Darrell Fisher, P.Eng.	Mr. Perry Thompson, EIT
Mr. Greg Gaudet, P.Eng.	Mr. David Wooldridge, P.Eng.
Mr. Anthony Glencross, P.Eng.	Mr. George Younker, P.Eng.
Mr. Arthur Hiscock, P.Eng.	
Mr. Randy Howatt, EIT	
Mr. Aaron MacDonald, P.Eng.	

1.0 Call to Order and Welcome

President Bill Courtney, P.Eng., called the meeting to order at 8:45 a.m. by welcoming everyone to the 2007 Annual Meeting. He then acknowledged two members who passed away since the last Annual Meeting. A moment of silence was called in remembrance of Laurie Coles, P.Eng. and John Gilmore, P.Eng.

Bill introduced and extended a warm welcome to the special guests from other engineering associations. He encouraged the Association members to take the opportunity to exchange ideas with the guests. He also acknowledged the sponsors of the Annual Meeting.

1.1 Changes to the Agenda

Bill noted that since the Agenda is set out in our By-Laws, there is no requirement of formal approval of the Agenda. There were no additions from the floor.

2.0 Minutes of the 2006 Annual Meeting

Bill asked if there were errors in or omissions from the minutes of the 2006 Annual Meeting. No errors or omissions were noted. He then called for the approval of the minutes.

It was moved by Jody MacLeod, P.Eng., and seconded by Tony Glencross, P.Eng., that the minutes be approved as presented.

3.0 Business Arising from Minutes

There was no business arising from the minutes.

Vice President Luc Van Hul, P.Eng., took the chair while President Bill Courtney, P.Eng., presented his report.

4.1 President's Report

President Bill Courtney, P.Eng., referred to his written report and provided updates on some of the initiatives that were undertaken during his term in office. He noted that the Professional Development Committee had successfully managed the PD program in the second year since a change in the Engineering Profession had made compliance mandatory. It was rendered necessary to remove four members from the Register for non-compliance. Five members were selected randomly for an audit of their

PD activities. Several changes to the program were made subsequent to requests from members and these changes became effective on January 1, 2007.

The Association was pleased to invest \$10,000 in the King's County Wind Farm, a green project that some of our members helped to design and build. The investment was advertised in local newspapers as part of our outreach initiatives.

The Executive Committee met with Premier Binns, Department of Transportation Minister Shea and Deputy Minister MacLean to present the Association's 2007 Brief to Government and discuss some current engineering issues. It was a great opportunity for the Association to bring to the forefront issues and opportunities related to the engineering profession and the Executive Committee intends to hold similar meetings regularly with the Province.

The President noted that the Canadian Council of Professional Engineers and the Association of Professional Engineers of Nova Scotia had recently adopted the business names of Engineers Canada and Engineers Nova Scotia respectively. Taking their lead, the Association will be looking at adopting the name "Engineers PEI". He was confident that the adoption of "Engineers PEI" would provide an opportunity to create better awareness of engineering in PEI.

Bill noted that he had the privilege of representing the Association at several Annual Meetings of sister associations. These meetings are great venues for keeping abreast of important association matters being dealt with and provide an insight into procedures for resolving issues such as discussions with the technologists associations and provincial adoption of the National Building Code.

With regard to the Province of PEI not yet having adopted the National Building Code the President referred to many unsuccessful attempts by APEPEI, sometimes in conjunction with the Architects Association, to have this situation remedied. Although the cities of Charlottetown and Summerside have recognized the benefit of adopting the NBC the areas outside the cities are not covered so the Association and the Architects, possibly in conjunction with other interested organizations, are planning in the near future to encourage the new provincial government to recognize the benefit of adopting the Code.

In closing the President stated that these were only some of the issues with which he had been involved. He thanked the members for the privilege of being President of the Association and having the opportunity to speak for the Association on many important issues; he treasured the many opportunity to exchange ideas with the other associations and our own members and encouraged members to participate in the many Association activities. He then thanked the Councillors for their work throughout the year and also expressed his gratitude for the continued support and assistance of Frank Parslow and Deborah Mutch throughout his tenure.

It was moved by Terry Murphy, P.Eng that the President's report be received. Report received.

President Bill Courtney, P.Eng., resumed chairing the meeting.

5.0 Executive Director's Report

Executive Director Frank Parslow, P.Eng., referred to his report as presented in the Annual Report. He noted that engineering continues to be in the forefront of development in Prince Edward Island and that this was exemplified by the 10 year Anniversary Confederation Bridge Engineering Summit. Many of the presentations and discussions revolved around the exceptional level of maintenance necessary to preserve the integrity of this structure and its valuable contribution to scientific knowledge of many aspects of the behaviour and upkeep of such structures.

He also asserted that the engineering profession, through the work of Engineers Canada and its constituent members, has been recognized as a leader in meeting the challenges of assessing the credentials of immigrant engineering applicants, often referred to as International Engineering Graduates, and expeditiously licensing those who possess the requisite qualifications. This leadership is exemplified by the From Consideration to Integration Program (FC2I) initiated by Engineers Canada and its constituent associations and supported by Human Resources and Skills Development Canada. In Atlantic Canada the Council of Atlantic Ministers of Education and Training has set up the Atlantic International Credentials and Competencies Centre (ICCAR); as part of this project President Bill Courtney attended a Stakeholder Consultation in Charlottetown and Frank attended the ICCAR Atlantic Symposium in Halifax. It appeared from these meetings that the status and capability of

APEPEI and the other Atlantic engineering associations in dealing with credentialing is recognized and accepted by ICCAR.

Frank noted that Marie LeMay, CEO of the Canadian Council of Professional Engineers, had recently tendered her resignation. Marie has made an outstanding contribution to the growth of the national body especially in developing discussions with the federal government and has been identified with most of the Engineers Canada initiatives of recent years.

Frank thanked the Executive and Council members for their support, courtesy and cooperation throughout the year and Deborah Mutch for her invaluable assistance to him and others involved in the work of the Association.

It was moved by Allan Campbell, P.Eng., that the Executive Director's Report be received. Report received.

6.0 Registrar's Report

As Registrar Frank Parslow, P.Eng., referred to his written Registrar's Report for 2006 – 2007. Currently the Association has 212 Members, 19 Honorary Life Members, 16 Retired Members, 56 Engineers-In-Training and 216 Licensees for a total of 519. He noted that membership continued its increase during the year and surpassed all previous totals. He noted that 4 members were removed from the Register due to non-payment and/or non-compliance with the Professional Development Program. Certificates of Authorizations were issued to 35 resident and 157 non-resident engineering companies providing engineering services in the Province.

It was moved by Glenda MacKinnon-Peters, P.Eng., that the Registrar's Report be received. Report received.

7.0 Treasurer's Report

The audited financial statements dated October 31, 2007 were presented by Treasurer Frank Parslow. He noted that the surplus from higher than anticipated membership together with expenditure control resulted in a surplus out of which a transfer was made of \$10,000 to the reserve for Act enforcement and self-governance and \$10,000 to the reserve for moderating anticipated future membership dues increases.

It was moved by Brian Arsenault, P.Eng, that the Treasurer's Report be received. Report received.

8.0 Engineers Canada Director's Report

Engineers Canada Director Ron Leblanc welcomed Engineers Canada President Tony Dawe, P.Eng., to the APEPEI Annual Meeting. Ron referred to his report as printed in the Annual Report. He noted that the name change from Canadian Council of Professional Engineers to Engineers Canada has been received well not only by the constituent members but also by the public and various stakeholders. The name change provided an opportunity to create an Engineers Canada Task Force which is looking at different ways to enhance the awareness and image of the profession.

Ron was also pleased to report that at the recent Engineers Canada Annual Meeting, the Board had finalized the selection criteria and procedures for bestowing Engineers Canada Fellowships. Council will be provided with this information when available. He also mentioned that a mutual recognition agreement was signed between Engineers Australia and Engineers Canada.

Ron also announced that he had been encouraged to run for a position on the Executive Committee of Engineers Canada. He noted that it was a great honour to be a part of the Engineers Canada Board of Directors where he could take an opportunity to ensure that PEI's voice would be heard in the national body.

He thanked Council, Frank and Deborah for their consideration and support throughout the year.

It was moved by Lloyd Cudmore, P.Eng., that the Engineers Canada Director's Report be received. Report received.

At approximately 10:00 a.m. President Bill Courtney, P.Eng., suspended the meeting for a nutrition break and at approximately 10:15 a.m. reopened the meeting.

9.0 Committee Reports

Since the annual reports had been posted to APEPEI's website prior to the meeting, the reports presented by committee chairpersons were brief. All of the reports were approved by a single motion following the presentation.

9.1 Act Enforcement

Act Enforcement Committee Chair Ed Power, P.Eng. referred the meeting to his written report. Ed noted that one complaint was received but was dismissed due to insufficient evidence to indicate violation of the Act or By-law. He also noted that he attended Engineers Canada's annual National Discipline and Enforcement meeting.

9.2 Annual Meeting Committee

Chair Bill Courtney, P.Eng., described the AGM activities planned for the rest of the day and evening and thanked the members of the AGM Committee for their contributions to ensuring the event's success..

9.3 Awards Committee

Chair Donald McGinn, P.Eng., noted that the committee received two award nominations for consideration. The awards will be presented at the Awards Gala later in the evening. The Long Service Awards are being presented to five members during the Engineers Luncheon.

He noted that there are many engineers and projects that could be eligible for the Association awards, but are not being recognized. He encouraged the membership to make the Association office, Council or Awards Committee members aware of potential recipients so that they could be duly recognized.

9.4 Construction & Consulting Committee

Chair Larry Baker, P.Eng., referred to his written report. He noted that the committee met with the PEI Road Builders & Heavy Construction Association in response to a letter they had forwarded to the committee for consideration. Larry noted that the committee was also requested by Council to investigate providing a list of engineering companies for possible inclusion in the PEI Prime Consultant List.

He also noted that the Committee reinstated the ad-hoc committee, National Building Code Subcommittee. Bill Courtney would be reporting on this matter. The main objective of this subcommittee is to encourage the adoption of the National Building Code for the Province of Prince Edward Island and not just the two cities.

He thanked the committee members for their time and work.

9.5 Continuing Education Committee

Chair Alisa Saciragic, P.Eng., reviewed the various events that were held during the year. She thanked the presenters for sharing their knowledge with members. She also encouraged any members who have something of interest that they wish to present to the membership to contact any committee members or the Association office.

Alisa thanked the committee members, the members and Deborah for their continued contribution in time and effort throughout the year.

9.6 E.I.T. Committee

Chair Larry Baker, P.Eng., reiterated the objective of the committee. He noted that an EIT Presentation was held in the Spring and the second one was scheduled for early December. He noted that he will continue to work closely with the Experience Review Board to ensure that EITs have an avenue to get feedback on their logbook submissions.

9.6.1 Experience Review Board

Chair Ron LeBlanc, P.Eng., explained that the Experience Review Board is a subset of the EIT Committee which has a mandate to provide feedback on EIT logbook submissions in an effort to assist EITs in their application to the Engineering Qualifications Committee for professional registration.

He noted that the uptake on this service was relatively low this year. He reminded EITs to take the opportunity of having the Board review their logbook submissions to ensure that relevant and progressive experience is being documented.

Ron thanked the committee members for their time and effort in this service.

9.7 Engineering Qualification Committee

Chair Brian Arsenault, P.Eng., reminded the membership that the Engineering Qualification Committee is equivalent to the Board of Examiners in other provinces. He noted that all P.Eng. candidates undergo interviews and that for this purpose the Committee sometimes brings in experts in specific disciplines. He reported that the Committee has received and reviewed a number of applications for registration from engineers-in-training on completion of four or more years of acceptable engineering work experience and from mature international engineering graduates.

9.8 National Engineering Week

Chair Darrell Fisher, P.Eng. reported that the National Engineering Week events were a great success. He noted that National Engineering Week is a great opportunity to showcase engineering to many school kids. The artworks judging and bridge testing were carried out at the Charlottetown Mall. The location allowed for greater pedestrian traffic and greater visibility. Similar to last year, the bridge building testing had a video and screen that provided the public with a better view of and a graphical representation of the destruction of the bridges. He also thanked the many companies that hosted the Engineers for a Day event for some Grade 11 and 12 students.

Darrell also noted that National Engineering Week Committee again teamed up with the Outreach Committee to host a booth at the recent PEI Teacher's Conference. It was a great opportunity to create more awareness of the National Engineering Week events by a targeted audience.

9.9 Nominating Committee

Chair Frank Chaisson, P.Eng. noted that he was pleased to be asked to chair this committee after Past President Chris Dixon, P.Eng., moved to another province. He presented the nominations for the 2006 – 2007 Council and thanked the nominees for allowing their names to stand. He thanked the other committee members for their assistance.

9.10 Outreach Committee

Vice-President Luc Van Hul, P.Eng. reported on behalf of Chair Christine MacKinnon, P.Eng. Luc referred the membership to the written report in the

Annual Report. The committee undertook several initiatives this year including advertisement of the Association's investment in wind energy bonds. The Executive had made a Brief to Government Presentation in an effort to keep the Premier and Minister of Transportation and Public Works abreast of current issues and opportunities related to the engineering profession in the Island. Several members have participated in a number of events in showcasing engineering and the Association.

Luc thanked the committee members and encouraged the membership continually to promote engineering to other members and to the public.

9.11 Professional Development Committee Report

Chair Luc Van Hul, P.Eng., reported that considerable time and effort had been expended by his committee in finalizing the Professional Development Program Compliance Manual which became effective from January 1, 2007. Changes in the Program include an averaging system, the addition of part-time status and provision for special assessment for sickness or disablement, parental leave and special consideration. Members were reminded that the program is mandatory. Luc reported that most members complied with the Professional Development Program; however, four members had their names removed from the Register for non-compliance.

Luc also reported that the committee undertook an audit of five arbitrarily selected member's Professional Development submittals. He noted that the selected members were, for the most part, compliant. He reminded members that the PD Activity Summary is all that needs to be submitted for compliance with the annual reporting requirement; however, backup documents must be completed and retained on file for audit purposes.

Luc thanked the committee members for their contribution.

9.12 Social Committee

Chair Mark Victor, P.Eng., reported that the Social Committee had a successful year. He reviewed the events that were organized and announced the upcoming events. He noted that the lobster supper and the golf tournament were very well attended. He thanked the committee members for their hard work during the year and invited the membership to attend future social events.

9.13 Student Chapter Committee

Chair Brian Arsenault, P.Eng., reported that the Committee continues to promote professional engineering to UPEI Students. Brian highlighted a couple of events, in particular the UPEI Career Night and the Engineering Student Competition. He announced that the Association assisted in defraying some of the travel expense of the UPEI Engineering Students who participated in the Regional and National Competition. He proudly acknowledged that the winning team of UPEI Engineering Student were also representative members of the Student Chapter Committee.

Brian noted that UPEI Students were invited to be and/or had been involved in several Association activities including National Engineering Week and the Annual Golf Tournament. He encouraged the students to participate in Association events as they are great opportunities to network with professionals and to learn more about different engineering sectors. He also reminded members and member companies to be more active in promoting professional engineering to students.

9.14 Approval of Committee Reports

Following completion of the committee reports, President Bill Courtney, P.Eng., thanked the committee chairs, committee members, Executive Director Frank Parslow and Administrative Assistant Deborah Mutch for their continued efforts. He encouraged all members to volunteer for one or more of a long list of committees so as to provide new vigour and ideas.

It was moved by Glenda MacKinnon-Peters, P.Eng., that the Committee Reports be received. Reports received.

10.0 Ratification of Actions of Council

It was moved by Frank Chaisson, P.Eng., and seconded by Tony Glencross, P.Eng., that the annual meeting ratify the actions of Council during the past year.

11.0 Greetings from Out-of-Province Guests

At different times during the meeting President Bill Courtney, P.Eng., invited the Presidents of the Associations, or their representatives, to offer a few words of greeting.

11.1 Greetings from PEG-NL

Professional Engineers and Geoscientists of Newfoundland and Labrador (PEG-NL) President Dick Myers, P.Eng., conveyed greetings to APEPEI. Dick reported that PEG-NL had been awaiting notice from the Provincial Government regarding changes to an Act dealing with self-regulatory Associations. He noted that the Association had recently received the proposed changes and would be assessing their impact. He noted that a careful review of the document will be undertaken before a submission is considered.

He thanked Bill for the invitation to the Annual Meeting and he looked forward to working with the new President of the Association.

11.2 Greetings from APEGNB

Association of Professional Engineers and Geoscientists New Brunswick (APEGNB) President David Crandall, P.Eng., thanked President Bill Courtney, P.Eng. for the invitation to attend the Annual Meeting. David reported that APEGNB recently opened their new offices in Fredericton and invited members to drop in on their new building. He also noted that they are continuing discussions with the Provincial Government on Limit of Liability. He is hopeful that the amendments will be included in the Spring Legislature Sitting.

He also noted that their Council had instructed their Legislative committee to review the APEGNB Act and By-laws to recommend amendments to accomplish limited licensure. He hopes to have this before the membership at the upcoming Annual Meeting.

David noted that it was a pleasure working with Bill on various national and regional issues and he looked forward to working with Luc in the next year.

11.3 Greetings from Engineers Canada

Engineers Canada President Tony Dawe, P.Eng. thanked the Association for the opportunity to address its membership. He congratulated Executive Director Frank Parslow, P.Eng., and Engineers Canada Director, Ron LeBlanc, P.Eng. on a great job of informing the membership about the activities of Engineers Canada in the Association newsletters. He noted that he enjoys the opportunity to attend various meetings across the country as it provides an insight to issues that are important to the individual

Associations. The issues that stood out have been infrastructure, Climate Change and sustainability.

Infrastructure requires special attention. Deteriorating infrastructure has been in the forefront in the media recently. Tony said that the Canadian Infrastructure Renewal initiative directly affects public safety and the Laval bridge collapse is a dramatic example of its importance. He noted that a Roundtable had been implemented to discuss issues and financing and to assess government commitment. He also noted that discussion has included changes in assessments, codes and standards in keeping with climate change concerns.

Aside from these issues, he noted that Engineers Canada continues to work diligently with International Engineering Graduates and with the implementation of the FC2I initiative. Work on the International Institutions and Degrees Database is near completion. Engineers Canada is also an active participant with the Engineering and Technology Labour Market Study. On the political scene, Engineers Canada had been pleased with its Bridge to Government Program and looks forward to its continued discussions. On the world scene, Engineers Canada had been well represented including the naming of former Engineers Canada President, Darrell Danyluk, P.Eng., as Chair of the Engineering and Environment Committee of the World Federation of Engineering Organizations. He reminded the membership that engineers play a leadership role on the world stage and encouraged all members to play significant roles in their local community.

Tony then acknowledged APEPEI's Director, Ron LeBlanc, in the multitude of roles that he has undertaken during his tenure, including being a member of a number of committees such as the Audit Committee, Awards Committee, Engineering Task Force Committee and Bridge to Government committee. He noted that Ron is not the only PEI delegate; Don MacEwen, P.Eng., is a member of the CEQB Committee and Wayne MacQuarrie, P.Eng., is a member of the CEAB Committee.

Tony thanked Ron LeBlanc, P.Eng., President Bill Courtney, P.Eng., and Executive Director Frank Parslow, P.Eng., for their dedication, time commitment and effort and he looked forward to working with the Association in the upcoming year.

11.4 Greetings from PEO

Professional Engineers Ontario (PEO) Council Member Richard Hilton, P.Eng., greeted the association on behalf of the President of PEO and the Executive Director. Richard reported that the Ontario Superior Court had recently ruled in favour of PEO in its court action against the Province of Ontario. The action was due to the change in the Provincial Building Code requiring engineers to write a test by the Ministry of Housing in order to carry out work under the Building Code. PEO objected to this action as infringing on its right to self-regulate.

He also noted that the PEO Council is currently looking at a mandatory Professional Development Program for its members. He noted that they are currently reviewing the other constituent members' programs for efficiency and effectiveness.

Rick thanked President Bill Courtney, P.Eng. for the invitation to the Annual Meeting.

11.5 Greetings from Engineers Nova Scotia

Engineers Nova Scotia President Conrad LeLievre, P.Eng., thanked President Bill Courtney, P.Eng. for the invitation to participate in the Annual Meeting. Conrad noted that following the lead of Engineers Canada the Association of Professional Engineers Nova Scotia recently adopted the name Engineers Nova Scotia; the name lends to a more awareness and visibility with in the public.

Conrad noted that the Association was undergoing a major review of their Engineering Act. They intend to format it similarly to that of the Architects Act, amending the residency requirement and definition of good standing. They are studying the impact of the revisions and will address some of issues uncovered during the review. He noted that Engineers Nova Scotia is also looking at adopting the Code of Ethics set out by Engineers Canada as it is more gender neutral.

Conrad noted that he looked forward to working with APEPEI during the year.

11.6 Greetings from APEGGA

Association of Professional Engineers, Geoscientists and Geologists of Alberta (APEGGA), President John MacLeod, P.Eng., extended greetings. John noted that their Association had been working with the

Engineering Technicians and Technologies on a "One Act Two Associations" Model. They are currently reviewing the regulations and studying the impact of this model.

John noted that they are continuing to investigate agreements for effective mobility of engineers within Canada and the United States. APEGGA has been working with Washington and Idaho on obtaining reciprocal licensing and on having the P.E and P.Eng designations regarded as equivalent.

John also said that one of their recent initiatives is increased promotion of the profession. He noted that sometimes engineering is regarded as an "invisible" profession. A marketing campaign including magazine print and billboard advertising is currently underway. He encouraged Engineers Canada to initiate programs that could be passed down to the constituent members in an effort to raise the profile of engineers and engineering.

John thanked Bill for the invitation to the Annual Meeting and looked forward to working with APEPEI during the year.

12.0 Scrutineer's Report

Executive Director Frank Parslow handed to President Bill Courtney, P.Eng. the sealed envelope from the Scrutineers Committee. The President then read the results of the election vote. Sixty-six (66) ballots were cast, sixty-six (66) ballots were counted and none (0) was spoiled.

The results were as follows:

President:	Luc Van Hul, P.Eng.
Vice President:	Darrell Fisher, P.Eng.
Councillor:	Nazmi Lawen, P.Eng.
Councillor:	David Morris, P.Eng.

13.0 Disposal of the Ballots

It was moved by Allan Campbell, P.Eng., and seconded by Don MacEwen, P.Eng., that the ballots be destroyed. Motion carried.

14.0 Installation of New Officers

The two newly elected Councillors were invited to sit at the head table.

14.1 Incoming President's Remarks

Incoming President Luc Van Hul, P.Eng., thanked and recognized the contribution of Outgoing President Bill Courtney, P.Eng., and welcomed the new Council members. During his speech, Luc stated that a lot of the work of engineers is away from the public eye and, as such, the profession and its members suffer from not being recognized for the contribution that they make to the day to day lives of the public. Luc noted that one of his mandates is to increase the prominence of the profession of engineering and its members. He noted that we should be showcasing our contributions to society and that we should demonstrate that engineers are catalysts for wealth creation, continued prosperity and a healthy environment.

He said that he looks forward to presenting a Brief to Government; it is a great means for the Association to make the Government aware of any concerns or issues that relate to the engineering profession in the province. He also said that he would like to investigate amending the Statute of Limitations as it pertains to engineers. He concedes that this project is an enormous undertaking; however, he hopes to achieve ground work on this project. He also looks forward to working with the newly formed Consulting Engineers PEI on common issues that affect both memberships.

Luc noted that he looks forward to representing the Association and its members.

15.0 Election of the 2007-2008 Nominating Committee

A call was made for two members to join the Past President in forming the 2007-2008 Nominating Committee.

It was moved by Frank Chaiisson, P.Eng., and seconded by Brian Arsenault P.Eng., that Lloyd Cudmore, P.Eng., and Perry Thompson, EIT, be approved as members of the 2007-2008 Nominating Committee. Motion carried.

16.0 Proposed Budget for 2007 – 2008

Incoming President Luc Van Hul, P.Eng., presented the proposed budget for 2007- 2008. Luc announced that no dues increase had been presented. He also noted that a conservative stance on revenue had been taken due to a possible reduction in the number of applications for a Licence to Practise. The project of obtaining and framing photographs of Past Presidents is being continued which is reflected under Photography and included in Miscellaneous to comply with the Auditor's grouping of expenses. It was pointed out that additional funds have been budgeted for Public Relations and Insurance due to the inclusion of Corporate Identity Protection Insurance in the Associations protection portfolio. There is also an increase in Wages and Benefits in anticipation of wage review, provision for cost of living adjustments and provision for a possible benefits program.

It was moved by Ed Power, P.Eng., and seconded by Jody MacLeod, P.Eng., that the proposed budget be approved. Motion carried.

17.0 Appointment of Auditor

It was moved by Tony Glencross, P.Eng., and seconded by Allan Campbell, P.Eng., that Carl Herring, C.A. be appointed as the Association's auditor for the upcoming year. Motion carried.

18.0 New Business

There was no new business.

19.0 Closing

President Bill Courtney, P.Eng., thanked the members and the guests for their participation in the Annual Meeting and invited them to the other planned events.

There being no further business, President Bill Courtney, P.Eng. announced the closing of the meeting at 10:50 a.m.

PRESIDENT'S REPORT

Luc Van Hul, P.Eng.
President

My year as President has drawn to a close and with it my final opportunity to highlight the past year's activities.

Engineers PEI

This year the new business name of "Engineers PEI" was adopted by our association along with a new logo. The new business name, "Engineers PEI" gives due prominence to the fundamental description of our calling, a description that lacked emphasis in the middle of a corporate name too lengthy for everyday use and was missing entirely in the inevitable but undistinguishable acronym. The new name and logo are now being used on a daily basis and are fully incorporated into Association signage, letterhead and promotional material.

It is important to note that while the business name "Engineers PEI" will be used for most purposes the corporate name of the Association will continue to be "Association of Professional Engineers of Prince Edward Island" and that its official Seal, the Seal (stamp) and Certificate issued to members and licensees, the title "Professional Engineer" and the designation "P.Eng." will remain unchanged. The new business name will have no bearing whatsoever on the regulatory functions of the Association including specification of the qualifications for and the protection of the above title and designation.

Attendance at Annual Meetings

This year the Executive Director and I have attended Annual General Meetings of the Association of Professional Engineers and Geoscientists of New Brunswick (APEGNB) in Miramichi, the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA) in Edmonton, the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL) in St. John's and Engineers Nova Scotia in Annapolis Valley. The Executive Director and I also attended Engineers Canada's Annual General Meeting and Semi Annual meeting in Quebec City and Ottawa respectively. These meetings are very informative and important in order to keep abreast of local and national issues.

Engineers Canada National Campaign

There were two major topics of discussion at the national level this year, the first being a new national campaign to raise the profile of the engineering profession. The proposed campaign is a multi-year collaborative promotional campaign with the focus of year one being on parents of school age children ages 12 to 18 and current or potential employers of professional engineers and is scheduled to be launched this winter through various printed national media. The cost of this national campaign is significant with the first year's costs being absorbed by Engineers Canada and those of future years to be covered by the Engineers Canada annual assessment fees which are based on the membership of each of its constituent members. The projected cost of the campaign when endorsed by all provincial and territorial associations is expected to be between \$4.00 and \$5.00 per annum per assessed member.

Agreement on Internal Trade - Labour Mobility

The second major topic at the national level was the proposed amendments to the Agreement on Internal Trade (AIT), in particular Chapter 7, Labour Mobility, which Internal Trade Ministers were directed by the Canadian Premiers to make by January 1, 2009, and which are expected to come into effect in April, 2009. The AIT essentially states that free mobility of all categories of employment including professions such as engineering must be allowed without any provincial or territorial barriers. This is basically what our current Inter-Association Mobility Agreement (IAMA) allows to happen; however, it is understood that the retention of the current "Notwithstanding" clause would be considered to be a breach of the AIT. With the above knowledge a modification of the IAMA is being drafted that would remove the Notwithstanding clause while still leaving the host association an opportunity in appropriate circumstances to review the credentials of an applicant for a transfer or licence to practise, prior to granting approval; however, it is currently uncertain that such an agreement will be acceptable under the revised AIT.

Brief to Government

The executive committee of Engineers PEI presented a brief to the provincial government in October of this year. Those present on behalf of Government were Premier Ghiz, Minister McKinley, Deputy Minister MacLean P.Eng., and Chief of Staff Chris LeClair. This meeting provided an opportunity for our association to increase Government's awareness of current issues and opportunities as they relate to our association.

Two topics of interest that were discussed were the Agreement on Internal Trade and the adoption of the National Building Code. With respect to the AIT, the Premier acknowledged our concern with the revised Chapter 7 of the Agreement; however, we were informed that the AIT revisions are to be adopted by April, 2009 and that free unrestricted mobility is the expected result. With regard to the adoption of the National Building Code the discussion was encouraging and we are hopeful that in due course the Province will adopt the Code.

Executive Director

Members were informed earlier this year that our current Executive Director, Frank Parslow, P.Eng., has indicated his intention to retire at the end of the 2008 calendar year. With this knowledge Engineers PEI began the search for a new Executive Director to take over on January 1, 2009. Several qualified members of our association applied for the position with the final selection and appointment by council

being James (Jim) Landrigan P.Eng., MBA. Jim resides in Charlottetown with his wife and two children and his experience in engineering management, corporate development, financial management and consulting make him well qualified for the position. I wish Jim the best in his new Executive Director role.

I would like to thank Council for their cooperation during the past year and the effort that they have shown on behalf of the Association. I would also like to thank Deborah Mutch for the greatly appreciated support that she has given to me and the Association. A special thank you goes out to Frank for his guidance and support during my term as President. Frank has been a valuable asset to our association administration for nearly ten years and has always performed his duties with the utmost respect and courtesy and will be missed at the Council and Executive table. I wish Frank well in his retirement and feel comforted knowing that he is only a phone call away to discuss issues as we enter a new Executive Director era.

Finally I would like to thank the membership for giving me the opportunity to serve as your President.

Respectfully Submitted,

Luc Van Hul, P.Eng.
President

EXECUTIVE DIRECTOR'S REPORT

Frank D. Parslow, P.Eng.
Executive Director

This is my last report as Executive Director and I am going to miss everything about the last nine and a half years with the possible exception of trying to decide what to write in Newsletter and Annual reports. A final report seemed to present an extra challenge in this respect prior to the thought of reflecting on just a few of the achievements of Council and the members of the Association during that period.

Inter-Association Mobility Agreement

At my first Annual Meeting of the Canadian Council of Professional Engineers (CCPE) in Yellowknife in 1999 I was fortunate to be present when APEPEI joined the other eleven associations in signing the Agreement on Mobility of Professional Engineers within Canada, now referred to more frequently as the Inter-Association Mobility Agreement (IAMA). This was not only a significant event for mobility of engineers within Canada but probably influenced to some extent subsequent international mutual recognition agreements.

In due course considerable work was done on translating the spirit of the IAMA into achievable timelines and a target was set for approving the licensing of an applicant in good standing in another association within five days of receiving all required information including confirmation of good standing by other associations of which the applicant is a member. It is hoped that when the new National Membership Database becomes fully operational the need for requesting direct confirmation of good standing will cease. Furthermore, in order to make it feasible for approval to be granted within five working days the associations were asked to delegate to staff the authority to approve compliant applications and APEPEI was one of the earliest associations to respond with delegation of approval to its Executive Director subject to endorsement by Council.

With the IAMA working well CCPE and its constituent members, the twelve provincial and territorial Associations/ordre, devoted increasing

attention to applicants from outside Canada and established the From Consideration to Integration program (FC2I). This project had the goal of developing new and/or improving existing processes that, without compromising public safety or lowering professional standards, would enable International Engineering Graduates (IEGs) who meet the initial requirements of education and experience to progress expeditiously to becoming licensed as Professional Engineers. APEPEI involved itself wholeheartedly in this program by offering an interview in lieu of confirmatory examinations to IEG applicants with appropriate academic credentials and approximately ten years of acceptable engineering work experience.

Additionally it moved quickly to meet another program objective by giving interim recognition in the form of Provisional Membership to IEG applicants who have met all the requirements for registration except the passing of the National Professional Practice Examination and/or the gaining of the one year of experience in a Canadian environment.

During this period of involvement in national programs APEPEI was also breaking new ground within its own jurisdiction by taking a number of initiatives for the benefit of its members and revising or modifying virtually all of its instruments and other documents.

Professional Development

Dealing firstly with the regulatory documents, the Engineering Profession Act and the By-laws, a minor change was made to the Act in order to give statutory effect to the intended mandatory status of the Professional Development Program; then a complete revision of the By-laws was ratified by the Members and subsequently received the approval of the Lieutenant-Governor-in-Council.

(Continued on page 13)

(Continued from page 12)

EIT Program

The Engineer-in-Training program was reviewed and revitalized by a number of changes that arose from experience with the existing program. Some of the changes were indicated by experiences of the Engineering Qualifications Committee following its adoption of a policy of supplementing a review of their logbooks by interviewing all EIT applicants for registration. Difficulty in finding enough mentors for the number of EITs in the system was identified by the EQC and the EIT Committee as a problem that had to be solved. The solution selected was the establishment of an Experience Review Board to undertake the periodic review of logbooks and provide feedback to EITs at six months, one year, two years and three years after entry into the program. The establishment of the Experience Review Board formed part of a complete revision of the Guideline for the Engineer-in-Training Program that incorporated provision for presentations to explain the Guideline to EITs and afford them an opportunity to obtain answers to questions.

Standard Documents

Other standard documents that were reviewed and revised were the Manual for Compliance of the Continuing Professional Development Program for Members, Licensees and Engineers-in-Training, the Outline of Services for Consulting Engineering Assignments and Recommended Fees and the Engineers PEI Policies and Procedures Handbook. In the Manual for Compliance the changes were based on input by Members and Engineers-in-Training at an open forum on the PD Program and experience acquired in administering the program over a number of years.

Improvements in Office Procedures

Improvements in office procedures ranged from continual streamlining of routine activities to the replacement of an outdated database by one custom designed by Jamie and Deborah Mutch and the installation of expanded printing capability. The upgraded printing capability has made possible the carrying out of virtually all association printing and publishing internally including a full colour edition of the Newsletter. Following a redesign by Website Advantage in 2003 the association website has been upgraded at intervals and dynamic pages have been added to allow for entries and changes in most parts

of the website being made in the office.

Salary Surveys

Salary Surveys were undertaken in conjunction with the other three Atlantic engineering associations in 2003 and 2006 and made available to members. A further survey is being considered for 2009. Also in 2003 a Membership Survey was undertaken for the purpose of ascertaining the views of members on the management and activities of the association and the results indicated a high level of satisfaction with the current situation.

50th Anniversary

In 2005 the Association celebrated the Fiftieth Anniversary of the enactment of the Engineering Profession Act and the commemoration of this important event at the Annual Meeting of that year was attended by no less than eight of the founding members, who were presented with Certificates of Recognition, and an exceptionally high number of Past Presidents. The Fiftieth Annual Meeting of the Association then took place in 2006

Engineers PEI

Following the lead in 2007 of the Canadian Council of Professional Engineers in adopting the name Engineers Canada and the Association of Professional Engineers of Nova Scotia in adopting the name Engineers Nova Scotia the Council of APEPEI took the necessary steps this year to register and use the business name Engineers PEI. Within a short time of making this decision an attractive logo was designed and new letterhead and signage were produced and utilized. Both the short and clearly distinguishable identification of the profession that the new name has achieved and the discarding of a virtually unpronounceable acronym were very well received by members of the Association and the public.

Safeguarding the Profession

Over the years a significant amount of time and effort has been devoted by Engineers Canada and the Council and staff of provincial and territorial engineering regulatory associations to safeguarding the profession in the face of escalating encroachments on its domain. These encroachments take the form not only of unqualified or uncertified persons undertaking engineering work but of the improper use

(Continued on page 14)

(Continued from page 13)

of “engineer” and “engineering” which are marks held by Engineers Canada and shared with its constituent members. Engineers PEI participates in efforts being made to curb such improper use and is prepared, when legal recourse is provided by the Engineering Profession Act, to take appropriate action.

Active Participation at National Level

Engineers PEI continues to participate actively at the national level. In addition to the involvement of the President and Executive Director in their official roles the following members of the Association are actively engaged in important work for the whole engineering profession. Don MacEwen, a former President of the Canadian Council of Professional Engineers, is a member of the Canadian Engineering Qualifications Board and Wayne MacQuarrie is in his second three-year term as a member of the Canadian Engineering Accreditation Board. Ron LeBlanc, the Association’s Engineers Canada Director, was elected this year to the Executive Committee of the national body and has been selected to chair the Advisory Committee of the Engineers Canada Campaign, a major initiative that has the objective of raising the profile of the engineering profession. More information on this campaign will be provided in other reports.

Off-Island Meetings

During this last year I had the pleasure of working closely and attending a number of off-island meetings with President Luc Van Hul and I wish to thank him together with Past President Bill Courtney and Vice-President Darrell Fisher and the other members of Council for their unfailing support, courtesy and friendship.

As this is my last report I also wish to say how much I enjoyed being associated during my term in office with former Presidents, Vice-Presidents, Past Presidents, Councillors, Administrative Assistants and volunteers of this Association together with past and present colleagues in the SLG, volunteers and staff members of Engineers Canada and officers and members of the other engineering associations.

I greatly appreciated being the Executive Director of such a vital and progressive organization as Engineers PEI and will miss both the challenges and satisfactions of dealing with the wide range of activities that it has embraced and the opportunities for travel and involvement with Engineers Canada and its constituent members that it has afforded.

Since her appointment I have very fortunate in being able to rely on the enthusiasm, energy and general helpfulness of Deborah Mutch who has been not only a very efficient and resourceful Administrative Assistant and manager of the office but has gone beyond the call of duty in using her initiative and ability to assist me and serve the association. Thank you, Deborah.

Frank Parslow, P.Eng.
Executive Director

REGISTRAR'S REPORT

Frank D. Parslow, P.Eng.
Registrar

During the 2007 - 2008 year, Council approved 81 applicants:

- 20 Members
- 27 Licensees
- 17 Engineers - In - Training
- 18 Certificates of Authorization.
- 1 Engineer - In - Training completed

their experience requirements and became Members of Engineers PEI,

- 2 member was granted Retired Status
- 1 was granted non-practising status.

Membership figures at the 2007 - 2008 year end and for earlier years are as follows:

	Honorary Life Members	Members	Retired Members	Engineers - In - Training	Licensees	Totals
2008	19	223	18	63	205	528

◆ Honorary Life Members	14	15	17	18	20	19	18	18	19	19	20	19	19
■ Members and Retired Members	224	227	213	210	208	214	218	220	221	228	222	228	241
▲ Engineers - In - Training	62	38	35	36	38	32	32	40	39	42	51	56	63
× Licensees	162	139	127	143	159	164	160	172	174	189	207	216	205
* Totals	462	419	392	407	425	429	428	450	453	478	500	519	528

During 2007—2008 names were removed from the register for the following reasons:

Deceased	0
Licensees - non-renewal.....	38
Members/EITs transferred or resigned	12
Members/EITs - non payment or dues and/or PD non-compliant	2
COA's not renewed	18

Certificates of Authorization were issued to 37 Resident and 154 Non-Resident companies providing engineering services in the Province.

The complete listing of Members, Engineers - In - Training, Licensees and Holders of Certificate of Authorization is provided on the final pages of this report.

Respectfully submitted,

Frank Parslow, P.Eng.
Registrar

ENGINEERS CANADA DIRECTOR'S REPORT

Ron LeBlanc, P.Eng.
Engineers Canada Director

It is my pleasure to represent PEI's professional engineers at the meetings of Engineers

Canada's Board of Directors. The organization serves its members, Canada's 12 provincial and territorial engineering regulatory associations, by delivering national programs that assist them in ensuring high standards of engineering education, professional qualifications and professional practice.

The scope of Engineers Canada's objectives and activities is best obtained through its website: www.engineerscanada.ca. The site has recently been re-launched with a new layout, and I encourage Engineers PEI members and other interested parties to explore that resource. Within those many objectives and activities there are some that I believe merit particular mention to Engineers PEI members.

Engineers Canada Promotional Campaign

As the chair of the Engineers Canada Campaign Advisory Committee, it is my pleasure to report that, during their October meeting, the Board of Engineers Canada approved a national, long-term campaign to raise the profile of the profession to key target audiences. Year One of the campaign has just begun, and aims to encourage parents to support their children in math and science—thus encouraging engineering as a career option—and employers so that they may recognize the added value of hiring professional engineers. The campaign is currently planned to carry through 2012, with future target audiences including high school students, high school teachers and guidance counsellors, government decision-makers, engineering students and Canadian engineers themselves. This exciting and very important initiative will communicate a consistent message about the engineering profession and engineering licensure at the national and provincial or territorial levels, and will build on and complement, rather than duplicate or replace, the extensive communications work being done by Engineers Canada's constituent members.

Engineering Summit – “Leading a Canadian Future: the New Engineer in Society”

The engineering profession has made numerous advancements on issues of importance, but there is still more work to be done. Thus, six leading Canadian engineering organizations (Engineers Canada, the Engineering Institute of Canada, the Association of Canadian Engineering Companies, the Canadian Academy of Engineering, the National Council of Deans of Engineering and Applied Science, the Canadian Federation of Engineering Students) have collaborated with the result being a national engineering summit to be held in Montreal from May 19 to 21, 2009, in conjunction with the annual meeting of Engineers Canada. The summit will bring together many sectors to work with the engineering profession to identify potential engineering services that can lead us to a cleaner, safer, more sustainable and competitive Canada in a global society. More information, including how to register for the summit, is available at www.engineeringssummit.ca

National Membership Database

The National Membership Database is a very useful tool for all of Canada's engineering regulatory associations. It is now up and running, with the information from the geoscientists being added.

Updated Accreditation Criteria

The Canadian Engineering Accreditation Board's new terms of reference and criteria were approved following extensive consultations. The new criteria bring aspects of outcomes assessment in to the accreditation criteria, balanced with input assessment from the previous criteria. Outcomes assessment requires the educational institution to demonstrate that their graduates possess specified attributes such as “an ability to use appropriate knowledge and skills to identify, formulate, analyze, and solve complex engineering problems in order to reach substantiated conclusions.” The Board of Engineers Canada

(Continued on page 17)

requested that the Accreditation Board develop a framework for moving more quickly to the outcomes assessment system. As the Accreditation Board develops this framework, they will continue to consult broadly with the constituent members, the National Council of Deans of Engineering and Applied Science and others.

Environmental Leadership

Engineers Canada's leadership on the issue of climate change adaptation has not gone unnoticed as the organization, represented by Darrel John Danyluk, P.Eng., an Engineers Canada past-president, has been appointed chair of the World Federation of Engineering Organizations' Committee on Engineering and the Environment. During the four-year initiative, which is sponsored by TD Insurance Meloche Monnex and is also supported by APEGGA, Engineers Canada will assume leadership in two themes: engineering and climate change adaptation, and the environmental and sustainable practices of engineers.

In addition, the Public Engineering Vulnerability Committee has published the First National Engineering Vulnerability Assessment Report. The result of the committee having looked broadly and systematically at infrastructure vulnerability to climate change from an engineering perspective, the report includes seven case study reports as well as literature reviews for four categories of public infrastructure: buildings; roads and associated structures; storm water and wastewater systems; and water resources. The report is available at www.pievc.ca

Engineers Canada looks forward to future collaboration with Engineers PEI. Members of Engineers PEI who wish to obtain additional information can contact me through the Engineers PEI office.

Respectfully submitted,

Ron LeBlanc, P.Eng.

ACT ENFORCEMENT COMMITTEE

Ed Power, P.Eng.
Chair

Committee Members:
Frank Chaisson, P.Eng.
Lloyd Cudmore, P.Eng.
Foch McNally, P.Eng.
(Act Enforcement Officer)

During the last year the Act Enforcement Committee investigated one complaint submitted by a member. In addition, a series of complaints relating to the construction of a building were submitted by a member and are currently being investigated.

The Engineers Canada Committee of National Discipline and Enforcement met in June 2008.

Items on the agenda included:

- The annual national survey of discipline and enforcement cases
- Update on the revised national Code of Ethics
- Renewal of the MOU on discipline and enforcement

The memorandum of understanding (MOU) on discipline and enforcement is a document relating to such things as cooperation and exchange of information between the engineering associations on discipline and enforcement matters.

I would like to thank our committee members for their work on the committee during the year.

Respectfully submitted,

Ed Power P. Eng.
Chair

ANNUAL MEETING COMMITTEE

Luc Van Hul, P.Eng.
Chair

Committee Members:
Darrell Fisher, P.Eng.
Bill Courtney, P.Eng.
Frank Parslow, P.Eng.
Deborah Mutch, Admin Asst

The 2007-2008 Annual Meeting will be held at the Charlottetown Hotel on Friday November 28, 2008. On Thursday November 27, 2008 the Association will host a dinner for Council members and out of province guests at the Dundee Arms Inn.

The program of events for the Annual Meeting commences with a business meeting in the morning followed by the Engineers Luncheon at noon which will feature guest speaker Brett Pugh, P.Eng. of Water for People and the presentation of Long Service Awards. In the afternoon a technical program will be given on the topic of "Nitrates and the Island Landscape".

The President's Reception and Awards Banquet will be held in the evening of Friday November 28, 2008 and will involve the presentation of Engineers PEI Awards and Citations along with the first presentation of Engineers Canada Fellowships. The evening will conclude with entertainment being provided by Kendra McGillivray, Bruce Rainnie and Kevin "Boomer" Gallant.

I would like to thank the Committee members for contributions to the committee.

Respectively submitted,

Luc Van Hul, P.Eng.

AWARDS COMMITTEE

Darrell Fisher, P.Eng.
Chair

Engineers PEI Awards

Calls for nominations were sent out to the membership through e-mail and our newsletter during the summer. Several nominations were received and reviewed by the committee, with five awards being recommended to Council:

The Ralph L. Woodside Memorial Award for Service to the Profession:

Frank Parslow, P. Eng.

The Young Engineer Achievement Award:

Jody MacLeod, P. Eng.

The Award for Engineering Achievement

**PEI Energy Corporation:
East Point Wind Plant**

The Engineering Award for Excellence

Doug Matheson, P. Eng.

The Friend of the Profession Award

Borden Boyles

Long Service Awards

This year, the Long Service Awards will be presented to the following members:

Twenty five years

Yves A. Allard, P.Eng.
John D. Gaudet, P.Eng.
Christine MacKinnon, P.Eng.

Thirty five years

James Lea, P.Eng.
Clifford F. Campbell, P.Eng.

Forty five years

Donald Champion, P.Eng.
Arthur E. Garrett, P.Eng.
H.E. Garth Jenkins, P.Eng.
H. Hillard MacLennan, P.Eng.
Oliver Manuel, P.Eng.

If any qualified members have not received a Long Service Award for 25, 35, or 45 years of service, please contact the Association office.

Committee Members:

Robert Hughes, P.Eng.
Sean Wheeler, P.Eng.

Engineers Canada Fellowship

We are pleased to announce that Engineers Canada has created the Engineers Canada Fellowship to honour individuals who have given noteworthy service to the engineering profession. The specific criteria required to be eligible for the Fellowship Award can be viewed on the Engineers Canada web site.

This year, Engineers PEI is bestowing this honour on Past Presidents of our association, and on members who have served as Executive Directors for a minimum of seven years. Thirty-nine members are listed to receive the Fellowship Award during our awards banquet:

Presidents

Norman F. Stewart, P.Eng.
Robert D. Donnelly, P.Eng.
W.W. Stuart Veale, P.Eng.
Dr. Thomas E. Richardson, P.Eng.
David A. Darby, P.Eng.
Frank J. Callaghan, P.Eng.
Art J. Hiscock, P.Eng.
Garth Jenkins, P.Eng.
Richard Farmer, P.Eng.
Clive Stewart, P.Eng.
Jim Stavert, P.Eng.
E. Roy Drake, P.Eng.
Ken Montgomery, P.Eng.
Don MacEwen, P.Eng.
Anthony A. Glencross, P.Eng.
Allan H. (Jake) Bartlett, P.Eng.
Ed Power, P.Eng.
Graeme Linkletter, P.Eng.
Clark Baglolle, P.Eng.
Vernon McQuillan, P.Eng.
Donald J. Gillis, P.Eng.
Wallace MacDonald, P.Eng.
Douglas A. Coles, P.Eng.
Frank Chaisson, P.Eng.
Robert L. Sear, P.Eng.
Wayne MacQuarrie, P.Eng.
Kerry Taylor, P.Eng.
Alan Maynard, P.Eng.

(Continued on page 20)

AWARDS COMMITTEE ... CONTINUED

(Continued from page 19)

Lloyd Cudmore, P.Eng.
Bill Drost, P.Eng.
Brian Arsenaault, P.Eng.
Glenda MacKinnon-Peters, P.Eng.
Peter Joostema, P.Eng.
Ron LeBlanc, P.Eng.
Christine MacKinnon, P.Eng.
Chris Dixon, P.Eng.
Bill Courtney, P.Eng.

Executive Directors

Don Champion, P.Eng.
Frank Parslow, P.Eng.

Being bestowed with this honour, means that these dedicated individuals have the privilege of using the designation "Fellow of Engineers Canada" or FEC or "Honorary Engineers Canada Fellow"- FEC (Hon.).

I would like to thank the members of the Awards Committee for taking time from their busy schedules to assist with the review of the nominations, and of course to Deborah Mutch, who always keeps things moving!

Respectfully Submitted,
Darrell Fisher, P. Eng.

Nazmi Lawen, P.Eng.
Chair

CONSTRUCTION & CONSULTING COMMITTEE

Committee Members:

Rodney Murray, P.Eng.
Cliff Campbell, P.Eng.
Frank Parslow, P.Eng.

Over the past year the Committee continued to pursue some of the outstanding issues from the previous year. These issues included:

City of Charlottetown Building Code Field Review of Construction Schedules

In 2008, the City of Charlottetown was in the process of implementing and updating the Building Code By-Laws. One of the concerns voiced by a few members of the Association was regarding the terminology used in the filed review of construction namely Schedule A and Schedule B. The City moved to change the Schedules with revised wording that was proposed by the Association and acceptable to the membership. The two schedules were replaced with several schedules each for each of the corresponding engineering disciplines.

City of Charlottetown Barrier Free Regulations

On behalf of the Committee, I attended a meeting at City Hall to review, discuss and provide comments on the proposed Barrier Free regulations which is considered to be implemented in the City of Charlottetown By-Laws.

Short List of Lead Engineering Consultants

As a follow up to the 2007 Brief to Government, Engineers PEI requested that qualified engineering firms be considered for selection as Lead Consultants on building projects. In response to this request but without making any commitment the Department of Transportation and Public Works asked that a short list of interested and appropriately qualified firms be submitted. The Committee followed up on this request and a short list of consultants was obtained from the Association of Consulting Engineers of PEI and forwarded to the PEI Department of Transportation and Public Works.

I would like to take this opportunity to thank the committee members for their time and effort.

Respectfully submitted,

Nazmi Lawen, P.Eng.

CONTINUING EDUCATION COMMITTEE

**David Morris, P.Eng.
Chair**

Committee Members:

Allan Campbell, P.Eng
Darcy Grant, P.Eng
Chris Jay P.Eng
Wayne Tremblay, EIT

The continuing education committee for 2007-2008 had another successful year, providing technical information sessions, tours and networking opportunities for the membership of Engineers PEI.

Events provided during the past year included:

- Wind Hydrogen Solutions: Hydrogen Fuelled Transportation
- Charlottetown Wastewater Treatment Facility
- Online Seminar and Information Session on Civil 3D Applications for Civil Engineering Design
- Jean Canfield Building LEED Presentation and Technical Tour
- Water for People presentation at the AGM
- Nitrates and the Island Landscape presentation at the AGM

Thanks to all committee members and regular members and guest presenters who volunteered their time and effort to make these events happen. Special thanks go to Deborah Mutch for organizing the venues, and preparing the notifications of the events.

Respectfully submitted on behalf of the Continuing Education Committee

David R.J. Morris, P.Eng
Chair

EIT COMMITTEE

**Mark Victor, P.Eng.
Chair**

The objective of the EIT Committee is to support our Engineers in Training as they work toward applying for Membership as Professional Engineer.

Over the past year, three EIT information sessions were hosted by the EIT Committee to explain the various requirements of the EIT program and to provide guidance concerning logbook records, the Professional Practice Exam and application to the Engineering Qualifications Committee. The December 2007 EIT information session was presented by Larry Baker, P.Eng., while the April and November 2008 sessions were presented by myself. Also in attendance at each of these sessions was Ron LeBlanc, P.Eng., Chair of the Engineering Review Board and Frank Parslow, P.Eng., Executive Director of the Association.

I would like to thank Ron LeBlanc, P.Eng. and Frank Parslow, P.Eng. for their valuable input at the past year's EIT information sessions. I also want to recognize the time and effort of Deborah Mutch and express my appreciation for her ongoing support of EIT Committee activities.

Respectfully submitted,

Mark Victor, P.Eng.
Chair

ENVIRONMENT COMMITTEE

**Richard MacEwen, P.Eng.
Chair**

Committee Members:

Bill Courtney, P.Eng.

Glenda MacKinnon-Peters, P.Eng.,

Jason Lindsay, EIT,

Stephen Coffin (UPEI Student)

David Noronha (UPEI Student)

The environment committee was re-established in January 2008 with six (6) members. The mandate of the committee is to advise on emerging issues related to the environment, promote engineers unique qualifications and standards of practice to environmental services and facilitate the communication of information to the engineering profession and other professions working in the environmental industry on the roles and practice standards of engineers in the environment field.

The committee met on roughly a monthly basis to discuss environmental issues and opportunities to integrate environmental awareness and sustainability into Engineers PEI. The committee considered a number of possible means to showcase the important role that Engineers play in managing our environment. The committee reviewed the operations of Engineers PEI and found that the association has an environmental champion in the role of Administrator; Deborah Mutch. A recent newsletter highlighted the many areas where Engineers PEI strives to minimize their environmental impact in the events that they are hosting including sourcing local products and minimizing wastes.

The Environment Committee is pleased to announce that bottled water is no longer used at the Engineers PEI office. Instead Charlottetown tap water is consumed. The committee published an article in the newsletter highlighting the environmental measures already taken by Engineers PEI. The committee also helped to arrange the Jean Canfield Continuing Education tour and has provided information to assist the Outreach committee and National Engineering Month committee to highlight the role engineers play in the environmental field. With the profile that the environment is taking in society and in particular with young people, we see a great opportunity to increase the profile of engineering through an environmental perspective. The environment committee will be partnering with UPEI students to present the environmental related work performed by engineers to schools throughout PEI. A total of 18 schools requested a visit from UPEI students to provide a presentation on Engineering and the Environment.

Some of the future means the committee would like Engineers PEI to consider to increase the profile of engineers through environmental endeavors include approaching organizations such as Habitat for Humanity with energy efficient home design options, the adoption of a stretch of highway, stream cleaning or enhancing, and potential marketing products such as litter collection bags.

The environment committee would like to encourage each of you to provide input into ways that Engineers PEI can become more environmentally friendly and how we can leverage the environmental work completed by engineers to increase our profile.

As Chair of the Environment Committee I would like to thank the committee members and others who have offered their time, ideas and efforts to promoting environmental sustainability.

Respectfully submitted on behalf of the 2008 Environment Committee,

Richard MacEwen, P.Eng.
Chair

EXPERIENCE REVIEW BOARD

**Ron LeBlanc, P.Eng.
Chair**

Committee Members:
Lloyd Cudmore, P.Eng.
Glenda Mackinnon-Peters, P.Eng.
Greg Gaudet, P.Eng.

The Experience Review Board is now in its third year of operation and uptake by EIT's for feedback started high for the year but dwindled to a screeching halt in the last half of the year. In the first half of the year 6 submissions were received for comment and none in the last half.

This is a service available to all EIT's to facilitate the transition from EIT to P.Eng.; it provides review/feedback to ensure that the EIT is demonstrating relevant, progressive experience and that the submissions are formatted in a manner consistent with the EIT Guideline recommendations.

Respectively submitted,

Ron LeBlanc, P.Eng.
Chair

NATIONAL BUILDING CODE SUBCOMMITTEE

**Bill Courtney, P.Eng.
Chair**

Committee Members:
Frank Parslow, P.Eng.
Gardiner MacNeill, P.Eng.

The NBC Sub-Committee is part of the Construction and Consulting Committee. Its mandate is to have the NBC adopted province-wide. PEI is one of just three provinces that have not yet adopted the NBC.

We have held meetings with the Architects Association of PEI, the Department of Communities, Cultural Affairs and Labour, and the Premier this year. The Architects are fully supportive of this effort, and there is good support for this within the senior management of the Province. We are hopeful

ENGINEERING QUALIFICATION COMMITTEE

**Brian Arsenault, P.Eng.
Chair**

Committee Members:
Nazmi Lawen, P.Eng.
Frank Parslow, P.Eng.

The role of the Engineering Qualifications Committee is to examine evidence presented for the purpose of obtaining a certificate of registration, licence to practise or admittance as an engineer-in-training and based on that examination report to Council. If necessary, the Committee may also prescribe and conduct exams to confirm candidates' abilities in engineering theory and professional practice.

Over the past year the Committee has reviewed a number of applications for registration from engineers-in-training and others. The registration statistics for the past year are provided in the Registrar's report.

I would like to thank the Committee Members for their efforts and time commitment made to review files and interview candidates. I would also like to thank Deborah Mutch for her support of Committee activities.

Respectfully Submitted,

Brian Arsenault, P.Eng.
Chair

that there will movement by the Province in the near future, and we have offered our services to help plan and implement a future adoption of the NBC.

I'd like to thank the committee members for their hard work and support this year.

Respectfully submitted,

Bill Courtney, P. Eng.
Chair

NATIONAL ENGINEERING WEEK COMMITTEE

Mike McKenna, P.Eng.

Kent Nicholson P.Eng.

Tanya Pater, EIT

Deborah Mutch, Admin. Asst

National Engineering Week is the national celebration of engineering excellence. Each year Canadians coast to coast take part in various activities to increase awareness of the importance of engineering in our everyday lives and to reach out to students to let them know that engineering is an exciting, fun and rewarding career choice.

Our 13th annual bridge building competition, art work contest and other hands on projects took place on March 7, 2008 at Charlottetown Mall. The number of the bridge entries received was small because of the many lost school days due to the storms, but still provided opportunity for the public to witness the amazing work that students did and lots of fun during testing. Creativity of the younger students was shown through the art work contest. Hands on experiments such as the buoyancy experiment provided lots of fun and a great time for contest participants and the general public as well.

Earlier this year, National Engineering Week was changed to National Engineering Month. In preparation for the 2009 National Engineering Month, the NEM Committee teamed up with the Outreach Committee and hosted a promotional booth at the recent Annual PEI Teachers Convention. It was a great opportunity to create more awareness of the National Engineering Week events by a targeted audience. We received great feedback and many teachers expressed interest in having their class participating in the next year's event and having engineers visit the classroom to talk to students about engineering as a career choice.

I wish to acknowledge particularly the work and support of the committee members, and the many volunteers who contribute their time and talents. My special tanks to Deborah Mutch who provided exceptional support and creative design ideas.

Respectfully submitted,
Alisa Saciragic, P.Eng
Chair

NOMINATING COMMITTEE

**Bill Courtney, P.Eng.
Chair**

Committee Members:

Lloyd Cudmore, P.Eng.

Perry Thompson, EIT

The Nominating Committee was successful in soliciting six award nominations in five award categories this year. We were also able to prepare a full slate of candidates for this year's council election.

I would encourage members to run for council next year, and to submit award nominations early in the year to avoid the rush in the fall. There are many worthy engineers and engineering projects out there, and we should use the Annual Meeting as an opportunity to recognize them formally.

I'd like to thank the committee members for their hard work this year.

Respectfully submitted,

Bill Courtney, P. Eng.

OUTREACH COMMITTEE

Bill Courtney, P.Eng.
Chair

Committee Members:

Christine MacKinnon, P.Eng.	Paul Tatlock, P.Eng.
Nazmi Lawen, P.Eng.	Tanya Pater, E.I.T.
Helen Blake, P.Eng.	Frank Parslow, P.Eng.
Bill Drost, P.Eng.	

The mandate of the Outreach Committee is to raise the profile of our Association and the Engineering profession by promoting our relevance, value, functions and activities. Outreach activities are conducted regularly by our committee, our Council, our staff, and of course our membership. We are all outreach ambassadors.

Some of the outreach-related activities this year included :

- National Engineering Week (NEW) activities, as coordinated by the NEW Committee.
- Newspaper advertisements to announce the new business name “Engineers PEI”, and to issue to the general public our annual list of our Members In Good Standing.
- Attendance at a national meeting of Engineers Canada to provide feedback on the national advertising campaign to raise the profile of Engineering and Professional Engineers.
- Assistance with the preparation of engineering job descriptions for a government website entitled “Job Futures Prince Edward Island”.
- Attendance at the 2008 PEI Teacher’s Convention in cooperation with the National Engineering Week Committee, and the Environment Committee. At this convention 18 teachers signed up to have an engineer or engineering student visit their school to talk on an engineering topic of the school’s choice.
- The annual Brief to Government was held in October. This is an opportunity for our association to make the Premier’s Office aware of the good work our members are doing everyday, and to make them aware of the current opportunities and issues important to Professional Engineers in our province.
- Meeting of our Executive Director and Vice-President with the PEI Department of Innovation and Advanced Learning to discuss proposed modifications to the Agreement on Internal Trade which will have an effect on our inter-provincial mobility and regulatory functions.
- Ongoing lobbying efforts to have the National Building Code adopted province-wide.
- Committee-level discussions on the possibility of partnering with Habitat For Humanity in a home-build in 2009 or 2010. This could be a combined effort of the Outreach and Environment committees.

Outreach is something we all do to some degree everyday. This committee expands on those activities to broaden the message we deliver, and the audience it is received by. If anyone has new ideas that our committee should explore, or would like to volunteer in some capacity, please contact the office.

I’d like to thank the committee members for their hard work and support this year, and Deborah Mutch for her ongoing assistance to this committee.

Respectfully submitted,

Bill Courtney, P. Eng.
Chair

PROFESSIONAL DEVELOPMENT COMMITTEE

**Mark Victor, P.Eng.
Chair**

Committee Members:
Alisa Saciragic, P.Eng.
David Morris, P.Eng.
Frank Parslow, P.Eng.

The Professional Development (PD) Program is now established as a mandatory component of the annual membership renewal process for all Members, Licensees and Engineers in Training (collectively referred to as members).

In 2008, the PD Committee randomly selected six members for audit with three of the six being Licensees. Each of the selected members was asked to provide back-up documentation to their PD Activity Summary by way of the standardized Activity Detail forms. At the time of submission of this report, the PD Committee review of all audited members was not yet complete.

Members are encouraged to utilize the PD Program Electronic Worksheet which is available online at the Engineers PEI website. Further to this, members are reminded that the Activity Detail forms do not have to be submitted with the PD Activity Summary but members should have the completed Activity Detail forms on file should they be selected for audit.

As the Chair of the PD Committee, I would like to thank all of the Committee members for their work over the past year. Also, on behalf of the Committee, I want to provide a special thank you to Deborah Mutch for her on-going dedication and assistance with the PD Program.

Respectfully submitted,

Mark Victor, P.Eng.
Chair

SOCIAL COMMITTEE

**David Morris, P.Eng.
Chair**

Committee Members:
Jamie Coffin, EIT
Kenny Sampson, P. Eng.
Pamela McAdams, EIT
Sean Wheeler, P.Eng
Deborah Mutch, Admin Asst..

The annual Engineer/Student Hockey game took place at the MacLauchlan Centre during National Engineering week on March 5. A social get together took place after the game as ISE's. This event gives the students a chance to meet and chat with the professional engineers in an informal relaxed atmosphere.

More than 200 people attended this year's Lobster Party, held on June 9th at the North Shore Community Centre in West Covehead. The Knights of Columbus again provided excellent service and the evening was enjoyed by all. Special thanks go to Ron LeBlanc, P. Eng., who orchestrated another challenging and entertaining trivia contest after the dinner. President Luc Van Hul P.Eng. presented Engineers PEI "new brand logo" to the members and their guests. The unveiling follows the recent adoption of the name Engineers PEI as the business name of the Association of Professional Engineers of Prince Edward Island

The Fall Golf Tournament was held on September 26th at Eagles Glen Golf. Sixty-four people attended the four-player-best-ball format. The event was a success and everyone enjoyed the opportunity to relax and socialize with their peers.

Thank you to all committee members and regular members who volunteered their time and effort to make these events happen. The committee also welcomes ideas for other events and are asked to contact the association office with such suggestions. A special thanks goes to Deborah Mutch for organizing the venues, and preparing the notifications of the events.

Respectfully submitted on behalf of the Social
Committee

David R.J. Morris, P.Eng
Chair

STUDENT CHAPTER COMMITTEE

Brian Arsenault, P.Eng.
Chair

Committee Members:

Association Member

Brian Arsenault
Andrew Trivett

Student Engineering Committee

Steven Coffin
Tim MacCarthy
Chris Russell
Ron Keefe
Katie Hughes
Jonathan Fitzpatrick

The Student Chapter Committee was formed to promote the profession to engineering students at UPEI. This is accomplished by promoting and organizing activities that increase the contact between our members and the engineering students. The following activities were undertaken during the year to promote the profession to engineering students:

Career Night

Arrangements are underway for a career night for early in the New Year for UPEI engineering students. At this activity, members share insights from their career with the engineering students.

Engineering Student Competitions

The Association was pleased to help defray the travel entrance fee costs for UPEI engineering students who entered the regional and regional engineering student competitions. The UPEI students were again successful taking second place in the Consulting Engineering Division. Team members were Mary Beth MacInnis, Ann Somers, Matt Duffy and Gustavo Zanatta.

National Engineering Week

Each year engineering students volunteer to help at the National Engineering Week bridge building competition.

Other Activities

Students were also encouraged to attend activities organized by the Continuing Education Committee as well as participate in events organized by the Social Committee. The Association also encourages members to hire engineering students for summer jobs via an e-mail campaign.

Respectfully Submitted,

Brian Arsenault, P.Eng.
Chair

Engineers PEI Award Recipients

Engineering Award for Excellence

- 1985 Arthur J. Hiscock, P.Eng
- 1991 Coles Associates Ltd.
- 1992 James C. Johnson, P.Eng
- 1993 Hall & Stavert Limited
- 1994 Locus Surveys Ltd.
- 1995 Dr. Thomas E. Richardson, P.Eng
- 1996 D. Blair MacLauchlan, P.Eng.
- 1997 Strait Crossing Inc./ Strait Crossing Joint Venture
- 1998 Brian Thompson, P.Eng.
- 1999 Vernon McQuillan, P.Eng
- 2000 Malcolm Lodge, P.Eng.
- 2002 Peter C. Toombs, P.Eng
- 2003 Douglas S. Wright, P.Eng.
- 2004 J. Clark Baglole, P.Eng
- 2007 Carl F. Brothers, P.Eng.

Community Service Award

- 1989 Wayne MacQuarrie, P.Eng.
- 1990 Anthony Glencross, P.Eng.
- 1991 Alan Aitken, P.Eng.
- 1992 Rev. Charles A. MacDonald, P.Eng.
- 1993 Jim Lea, P.Eng.
- 1994 Foster C. Fisher, P.Eng.
- 1995 George A. Trainor, P.Eng.
- 1996 Frank E. Chaisson, P.Eng.
- 1997 Alan R. Brown, P.Eng.
- 1998 H. Douglas Johnson, P.Eng.
- 1999 Daniel A. MacKinnon, P.Eng.
- 2000 J. Clark Baglole, P.Eng.
- 2001 Prof. Don Gillis, P.Eng.
- 2002 Angus Orford, P.Eng.
- 2004 Robert Sear, P.Eng.
- 2006 Jeff Keefe, P.Eng.

Friend of the Profession Award

- 2002 Harry W. MacLauchlan

Ralph L. Woodside Memorial Award for Service to the Profession

- 1989 Don Himelman, P.Eng.
- 1990 Don MacEwen, P.Eng.
- 1991 Donald Champion, P.Eng.
- 1992 Norman Stewart, P.Eng.
- 1993 Donald J. Gillis, P.Eng.
- 1994 Lea V. Windsor, P.Eng.
- 1995 Wallace J. MacDonald, P.Eng.
- 1996 Frank J. Callaghan, P.Eng.
- 1997 Douglas A. Coles, P.Eng.
- 1998 Ed Power, P.Eng.
- 1999 Graeme Linkletter, P.Eng.
- 2000 Robert L. Sear, P.Eng.
- 2003 D. Wayne MacQuarrie, P.Eng.
- 2006 Allan (Jake) Bartlett, P.Eng.
- 2007 Brian A. Arsenault, P.Eng.

Young Engineer Achievement Award

- 1989 Ron DeHaan, P.Eng.
- 1990 David Crandall, P.Eng.
- 1991 Larry McQuaid, P.Eng.
- 1992 Peter C. Toombs, P.Eng.
- 1993 David Brown, P.Eng.
- 1994 Douglas S. Wright, P.Eng.
- 1995 Rodney G. Murray, P.Eng.
- 1997 Bill C. Drost, P.Eng.
- 1998 Donald McGinn, P.Eng.
- 1999 Ian Galloway, P.Eng.
- 2001 Kelly Galloway, P.Eng.
- 2002 Kenneth G. Sampson, P.Eng.
- 2006 Christopher Jay, P.Eng.

Past Presidents Roster
