

## Engineering Business Cards

The following is a guideline for correct wording of business cards for engineers.

### Acceptable Business Card Formats

(People Registered or Enrolled with Engineers PEI):

Joe Smith P.Eng Senior Mechanical Engineer Some Company Some City, PE	Jane Smith, E.I.T. Junior Engineer Some Company Some City, PE
Joe Smith, B.Eng. P.Eng. Plant Engineer Some City, PE	

***Rationale:** - can only use “P.Eng.,” “E.I.T.” or “Engineer” if the person is registered or enrolled with Engineers PEI. However, an E.I.T. may not use the designation “Engineer” prefaced by a recognized engineering discipline but may do so with a description such as “Junior” provided the title “Engineer-in-Training” or “E.I.T.” is used at the same time.*

### Acceptable Business Cards Formats

(People **Not Registered** with Engineers PEI):

Jane Smith, B.Eng.  
 Senior Designer  
 Some Town, PE

***Rationale:** - cannot use “Engineer” in job title if not registered with Engineers PEI. Use of B.Eng. with designer title is acceptable*

### Unacceptable Business Card Formats:

Joe Smith B.Eng. Senior Design Engineer Some Company Some Town, PE	Jane Smith, B.Eng. Junior Engineer Some Company Some City, PE
---	--

***Rationale:** - can only use “Engineer” in the title if the person is registered as a “P.Eng.” or, subject to the provision above, enrolled as an “E.I.T.” with Engineers PEI.*
